EDUCATION

Master of Computer Applications (Indira Gandhi National Open University)	2024-2026
Bachelors in Science (Maths) (Chaudhary Charan Singh University)	2020-2023
Senior Secondary (Ingraham English Medium School)	2018-2019
Secondary (Ingraham English Medium School)	2016-2017

EXPERIENCE

- Cyorbis Technologies** Sep. 2023 - Jul. 2025
Frontend Developer Remote
 - Customer Relationship Management (Real-Estate):-** Developed a responsive, user-centric frontend with API integrations for the CRM, enabling seamless lead tracking, follow-ups, and resulting in **30% faster lead response time** and a **20% boost in agent productivity**.
 - HouseOrProperties:-** Designed and implemented a high-performance frontend with API integrations for a website and CMS, optimizing SEO and enhancing user engagement. Improved **Google Lighthouse performance score to 89**, reduced **page load time by 40%**, and streamlined lead capture workflows, contributing to a **15% increase in qualified leads**.

PROJECTS

- AiPrep - AI interview preparation platform** Aug 2025 - Sep 2025
ReactJs | NextJs | TypeScript | Firebase | Vapi | Vercel AI SDK | TailwindCSS [GitHub](#)
 - Developed a full-stack AI assistant for interview preparation platform with curated resources, coding practice, study guides, and personalized dashboards using NextJs and firebase.
 - Integrated **Google Gemini** via **Vercel AI SDK** to generate tailored interview questions, provide AI-powered feedback, and track user progress, with secure authentication and responsive UI built with TailwindCSS.
- FreshBasket - E-commerce grocery portal** July 2025 - Sep 2025
ReactJs | NextJs | NodeJs | ExpressJs | JavaScript | Redux | MongoDB | Cloudinary | RestAPIs | WebSockets | TailwindCSS | Stripe | Vite | Mongoose | JWT & Cookies | AntDesign UI [GitHub](#)
 - Developed a full-stack e-commerce grocery platform with robust **CRUD** functionality for product browsing, cart, and checkout functionality using the **MERN** stack.
 - Implemented **JWT**-based authentication, integrated **Stripe** for secure payments, and built responsive **React** frontend with a **RESTful Nodejs** and **ExpressJS** backend.
- Mern Holidays- Online portal for browsing and listing hotels** July 2023 - Aug 2023
React Js | ExpressJs | NodeJs | TypeScript | HTML5 | CSS3 | Mongoose | MongoDB | Stripe [GitHub](#)
 - Set up an Express-powered RESTful hotel viewing and listing platform with robust **CRUD** functionalities.
 - Leveraging Embedded JavaScript (ejs) for real-time content, **Cloudinary** for media management, and Node for a streamlined development, the platform ensures a responsive and feature-rich experience.
- GameX Landing Page - Interactive gaming showcase** Feb 2025 - Feb 2025
HTML5 | JavaScript | CSS3 [GitHub](#)
 - Developed a responsive, animation-rich gaming landing page with hero banner, character showcase, in-game gallery, event highlights, and newsletter subscription to boost user engagement.
